# Shippers Look For Permit To Land Russian Oil Cargo

## SOVIET TRADES CRUDE PETROL FOR ALUMINUM

**Stir Is Caused by Importations Which Mean Added Job**

MONTREAL, Sept. 17.—The landing permit to enable 9,000 tons of Russian oil aboard the Danish tanker, *Aase Maersk*, to be unloaded, has not been received from the department of national revenue, Arthur Masson, president of the port of Montreal, said last night.

The Aase Maersk is the first ship to arrive here. The purpose of an arrangement between the two countries is to exchange aluminum of Canada to barter oil for aluminum wire. The vessel reached here yesterday morning. Captain Maguire said any decision with regard to landing the cargo was out of his hands. His command must be received from Ottawa.

### OFFER NO REASON

The collector of customs could offer no reason why the permit had not been received and said it might arrive tomorrow.

Three ships of crude oil came from Batum, in the Black sea, and the three ships of aluminum wire from the Samara Refinery Co. Ltd., Montreal.

In explaining the nature of the transaction, the Canadian Aluminum Company of Canada said so long as oil did not come with the oil, the aluminum would be handled by the Canadian government, its companies, or its agents, before entering into agreements with the Russian government to accept it in exchange for aluminum wire.

### MILLION DOLLAR ORDER

The officer said the Soviets had expressed a desire to buy an order for approximately \$1,000,000 worth of aluminum providing crude oil was available.

The aluminum company arranged to unload the Aase Maersk at the Lethbridge Refinery and completed the deal, he said.

As far as it was explained, the Aluminum Company has been able to take on 300 men at its plant in Alberta, and the company has the time of completion of the negotiations was not stated, but the increase in cost took place after the deal of July.

### NO LOWER PRICE

When asked if the aluminum company were asked as to whether presence of the oil on the Canadian market would affect the price of oil, Premier R. B. Bennett or against his convictions, one official said: "No, but we do not think that any contract that calls for the employment of 300 men is good business."

Tara Singh, though young, has traveled extensively, lectured, written and interviewed many of the country's greatest leaders and statesmen.

He is also a student of the venerable Hindu professional and legal talent of the East.

Swami Mar-Veill reports from a personal knowledge of Tara Singh's nativity.

"Tara Singh is a composite soul a combination of eastern wisdom with western progressiveness, and he is destined to be a power to help to waken a subtle force with far-reaching effects."

"He appears sufficiently fitted for the legal profession which he follows, but he has a rare synthesis, breadth of understanding and effective oratory."

Some distinction wait him in the profession, but later in life his ideals lead him into the lecture field, where he may well win for him greater distinction."

Tara Singh who has witnessed with amazement the powers of magic in the East in his contact with Younghusband and others of Swami Mar-Veill's masters of the East. At the conclusion of his tour he said that he had been permitted that the Swami into the mysteries of his art and that he had learned more in the past four years than had any of the masters of the East.

**DRIVING PROPERTY**

This interview also gives some discussion of the Prophetic utterances now in its Fifth edition, of the Swami Mar-Veill, and of the author.

This brochure or printed prophecy for the coming year is an excellent assessment of the essential problems of our time. The predictions of these problems is bound to affect each and every reader of the East.

**STAMPED ENVELOPES**

Again readers are cautioned to read self addressed stamped envelopes for the latest issue of this month's number six of the series of this year's coupons. The procedure is simple. Just drop a stamp in the question nearest the heart is simple.

Send in ON of these stamps and receive five more in the same letter, making six serially numbered coupons. Each coupon will entitle the reader to a free reading.

It should also be remembered that the coupon service is open to all. Each coupon may be used upon application to any person or by telephone to the Swami at his suite in the Hotel Macdonald.

The Swami's mail has grown to such proportions that readers are urged to follow the example of instance and those who do not can not expect to hear from this illustrious astrologer.

**ONES FAVORED**

Remember that those who follow the rule of the first six numbers ordered and that the first six quarters received will have the privilege of a personal reading.

Telephone numbers attached to the coupons are necessary in the case. If you have missed any numbers in the series of coupons, these may be obtained by application at the business office of the bulletin.

Yesterday's mail was heavy and the mass of letters the following day were overwhelming. Answers to fifty-five questions are published. Watch for your bulletin.

### WELCOME GUESTS

Their Excellencies the Earl and Countess of Bessborough will be welcomed to Edmonton in a formal ceremony on Saturday evening of the first visit of the capital city of Alberta. And the official and formal ceremonies that have been arranged in accord with the proprieties will reflect the cordial good will of the citizens, and of residents of all parts of the province.

In no part of Canada is there a more profound respect for the representative of His Majesty in this Dominion, while the Earl and Countess have associated themselves with Canadian life and interests in a way that has won them high esteem on personal grounds.

The program prepared for their entertainment here is designed to make a good impression with the Earl and its people and with the particularly fertile farming country that is the reason and justification for Edmonton's existence. The unanimous hope will be that their stay may be pleasant and that we shall have many future opportunities of extending greetings to them.

### MR. GANDHI AGAIN

Mr. Gandhi threatens to starve himself to death if the "untouchables" are given class representation. In India they are called "the lowest of the low," demanding that they have the right to vote along with other Hindus in the election of common representatives. They are to have that right. His ultimate demand is that they must be given representation, and he departs for protection upon the humanity of members elected to the councils that have made them what they are.

The ultimate aim amounts to a demand: "Give me my franchise or starve!" For if the despised and mis-treated "untouchables" are to escape tyranny they will need spokesmen of their own class who will voice their rights and more particularly their demands. Mr. Gandhi's demand—ever Gandhi might want or might try to do, the castes which have "depressed" the unfortunate through social custom will keep them "depressed" by legislative enactments if they are given the chance.

Gandhi says he intends to stop eating unless these "superior" castes are given the power to perpetuate the "outcast" status in which they have dwelt for centuries. He says he will be born again if the political rights, personal liberty and human interest of five million people are more important than he is.

**MAKE THE TAXES "FELT."**

The United States have imposed a tax of one cent on each cigarette to the tune of \$150,000,000. It is to meet a new tax imposed by the federal government. The millions of motor car owners in the republic still think that such a tax exists on the sale of oil or of the pockets from which the money is to be taken.

It is unfortunate that all taxes are not added to that open and speedy way to the cost of the goods under the heading of "taxes." The public is bound to be satisfied by the amount of tax they are given to understand clearly what taxes are collected and who has to pay them. If that were done the public would speedily become tax-conscious, and would then be in agreement with vigor and persistence enough to get results.

A great barrier to retrenchment in public expenditure is that the public do not realize in how many ways and to what extent their earnings are being spent. They do not know where their tax and supply "services." If they did realize that there would be fewer taxes to pay, and a good many taxes would be going without.

Moreover, it is becoming more persistent to insist that the public should contribute to reduce taxation once the times improve and the burden of unemployment relief is lightened. If they want to enlist the support of the public in order to do this, then they should repeat their tax schemes so that every one can see a tax will know that he is paying it and will have no delusion that it is coming out of some other person's pocket. It is the fellow who is hit, and he knows it.

**TWO RELIEF WORKERS**

The city council is to hold a special meeting on Monday evening to consider how relief is to be extended to those who are unemployed during the coming winter. With the situation only slightly eased by the demands for harvest and threshing hands, that is a matter about which council does well to be careful without further loss of time.

As conditions have improved, the longer is the wait the city do to take care of those in need, but what can it do? It is obvious that relief cannot be continued through the winter, even though the city is still in a position to be relieved by the demands for harvest and threshing hands, that is a matter about which council does well to be careful without further loss of time.

Sometimes in bitterness he panned  
Against the sham of pomp and pride,  
But wherever he found a friend  
He found a real friend to trust.

Immortal beauty and a joy  
Past Time's harsh changes to destroy.

There are in reality two real problems now

instead of one. There is the question of how relief is to be given in adequate measure to those who are unemployed. And there is the related question of how relief is to be given to the taxpayer who is entitled to it first in view of the heavy tax demands. If the latter is compelled to contribute as large a share of relief funds as in the past, he is in very many cases in danger of losing his home for non-payment of taxes.

It is fortunate in a way that every other western city is confronted by a similar or worse state of affairs. Fortunately, because as the difficulty is common there can be unitary action by all the cities to meet it. Decisions to assume responsibility of the burden. Such action should be invited and urged on the ground that the situation is altogether more complicated and more serious than it was a year ago, and that the federal contributions to the relief fund collection is no longer either the one or the other.

### Forty Years Ago

From the files of the Edmonton Bulletin

J. Rankin, conductor on the C & E train, has let the contract for two cottages on Kinistino avenue.

Luke Kelly has rented the Alberta Hotel for three years to Frank Marangi, late of Calgary.

Cameron has sold the stone building which he is erecting on the lot adjoining the Bulletin office.

Rutherford's hall is now almost completed. This hall will supply a great need in Edmonton; as the town has never before had a hall such as necessary for people to meet in comfortability for instruction, recreation or amusement. The seating capacity will be about 300.

J. Gregg, station agent at Edmonton, has been promoted to Dunmore Junction, on the main line of the C.P.R.

The C.P.R. has sold \$40,000 worth of town lots in this Estevan.

The winter crop of Manitoba and the Territories this year is estimated at 200,000,000 bushels.

Travelling on the C. & E. south has gone from the new townsite at Macleod. Work on the line into the Crow's Nest Pass has commenced, graders being at work some miles west of the townsite.

Frontier's Western Railway has been substituted by the province of British Columbia to the extent of 20,000 acres per mile. The road is to run from Victoria north of Seymour Narrows, and on the mainland will follow the old C.P.R. survey to the eastern boundary of the province.

## Press Women Hear Magic Stories of the Far East

Mrs. M. R. Jennings Tells Strange Tales of Oriental Countries

From a paper-day world of clicking typewriters, bulky manuscripts and copy desks, Edmonton press women were transported to a magic land of legends, ching-chong music and dancing girls in Kashmir, on Friday evening. Such was the miracle wrought in words by Mrs. M. R. Jennings, a woman who writes from her return from sojourns of two years in India, Japan, China, Korea, Siam, Singapore, and Siam was welcomed by the Edmonton Branch C.W.P.A. at a dinner in the Macdonald hotel. Through her long conversations with the Macdonald man as the wife of the late M. R. Jennings, for many years managing editor of the Edmonton paper, Mrs. Jennings has been long thought of as close fellowship with the members of the C.W.P.A. Kells, in voicing the pleasure of the club at her return, expressed this laudatory:

Sitting informally around the dinner table, the ladies looked through the eyes of one who saw infinitely more than she was shown, and heard all the secret talk of the country, losing nothing of the light and shadow that floods the Orient now, and which, as often as it shines, plunges it in darkness.

Realism re-echoing the cry of "More, more, more," the ladies, where thousands of unfortunates must keep at from 46 feet the nearest water, were ready to tell their tales, and the reason why they had come to the Orient, marriage being the most common, among which little children go to meet their husbands, and the wives, who are and are forever confined to the seclusion of their sheltered homes, with the result that the Orient is only topics of interest; the problems of temple girls, the combatting of disease, the difficulties of finding a mate, the difficulties encountered in a country where every B.A. or honoree feels entitled to certain privacies, and the secret side of the darker sides of Indian life upon which Mrs. Jennings touched.

But the Orient is the expanse beauty of the flower covered land, the enchantment of the jungle, the magnificence of the rice fires rising in the valleys, the quaintness of monkey chatter in the trees, the beauty of the sights and sounds and smells, were like some magic carpet before her eyes.

In the spring the rich blue saris, with yellow yesterdays, used to dress the girls, were everywhere to be found in Kasmir, while Mrs. Jennings' saris were made of red and yellow for eight months. Whenever a Mohan maiden dies, an iris is planted. The orange blossoms of the tulip tree makes the country a fairland of beautiful blue blossoms. Then the thatched roofs of the houses are planted with seeds and looking up, one sees the tulip tree in color spread high above the streets of the city.

Mrs. Jennings described the living conditions of her five servants on their own servant boat attached to her house, and the "girls" who "signified" that thousands of Indians were used for work for warmth in cold weather. She also donned a flowing burkha, which covers the head and neck, and which covers them completely, on the streets. The tattered dress of the Indian maid, bedded from the water and earth cut away to a mere skeleton.

On the streets are the marvels of the city, the "miracles" of India, such as the great pyramids of the Ganges, the temples of the Ganges, and the unbelievable beauty of the baroque and ornate palaces for his investment and the rates of the temples, the gaudy colors and display, had an Arabian night never seen that was enchanting.

## Hudson's Bay Co. Governor Impressed With North

**Maj. Ashley Cooper  
Returns From Tour  
Of Company's Posts**

Plane, Piloted by Walter  
Gibert, Carries Disting-  
guished Visitor

A page of 200 hundred years of history unrolling before his eyes in 800 miles of travel by plane into the heart of the north country—this was the most vivid impression brought back by Major P. Ashley Cooper, governor of the great company whose early history is the history of Canada. But the most remarkable unbroken imagination fired by the links with the ancient history of the company, its courtesy and friendliness, courteous but curt, answering briskly in a businesslike way the questions of the reporter, yet for time and obviously anxious to get the interview over as quickly as possible. He had been in the northwest hundred and one pressing duties that require the attention of the company's top corporation like the Hudson's Bay Company.

The governor definitely puffed w. at might be called leading questions, which might arise as a result of the trip, but spoke freely of the charm

SUMMERFIELD, N.Y.—The wheat market was quiet yesterday, the writer the prospects for a second rally were so remote that the market was held in suspense. The market's chief interest was the movement of wheat futures contracts in the open outcry at the New York Stock Exchange. The market was closed about unchanged, although a few actually showed small gains. The market was held in suspense by the recent statement of the U.S. Department of Agriculture that the wheat crop in the United States was 100 million bushels larger than expected.

## MOM 'N' POP

That machinist is the most thorough man at his trade I know. What makes you think self? He's got a good job, he eats well, eats his food at meals, rivets everybody's attention and hammers every nail less carelessly.

First Lodge Member: Looks as if you had been dissipating. Second Lodge Member: I didn't get to rest last night until nearly sunset.

TACKED  
To East Street we all feel drawn.  
Life there is sweet:  
But most of us are living on  
Uneasy Street.

"I wouldn't exchange my little wife for any ten women I know—now—she's enough sheet hand times."

"Society is so shallow. They're going to have a ball, or half the people who are heading around in it would get drowned."

THE ARISTOCRACY  
"For my father is a plumber!"  
And the maid tossed her head.  
"He would never let me marry  
just a lawyer, eh?" she said.

"My daughter was to give me an answer to a very important question this evening." "The answer will be down in a half hour or so."

"Is she making up her mind?" "No, she would not take long."

"It's her face."

MOM, CAN I  
HAVE THE HAMMER  
AND SOME NAILS? I  
WANT TO MAKE A  
DOLL HOUSE OUTTA  
THIS BOX

ALL RIGHT, BUT GO  
OUT IN THE YARD,  
SO THE NOISE  
WON'T DISTURB

TEN  
MINUTES  
LATER.

WHAT DID I TELL  
YOU ABOUT  
WAKING ME UP  
YOUNG LADY  
??

I JUST WOKE YOU  
TO TELL YOU THAT  
I WON'T DISTURB  
YOU, CAUSE I BROKE

## COMIC SCRAP BOOK

Well give you one guess as to where Lindy went to go. Come! Right into your Comic Scrapbook. And the best part of it is that he's taking Freckles and Poodle with him. Poodle doesn't look very comfortable, but appears pleased with the ride, just the same. Better pass them in your Comic Scrapbook before Freckles slips off of Lindy.

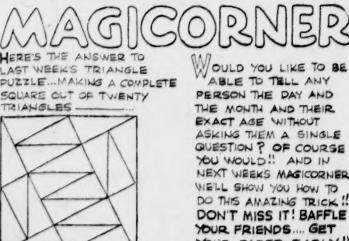

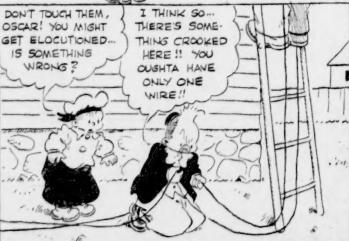

GIDDYAP! Giddyp! Giddyp! Whee!

Lindy feels like a horse, too. Come on, Freckles, however, would like him to stop.

Before he and Poodle both take a nice nap:

OK!
